

Declaration of interests of Board Members and all other Trust Staff Decision Makers – November 2023

Some staff are more likely than others to have a decision making influence on the use of taxpayers' money, because of the requirements of their role. These people are referred to as 'decision making staff.'

Decision making staff in this organisation are:

- Executive and Non-Executive directors who have decision making roles which involve the spending of taxpayers' money
- Members of advisory groups which contribute to direct or delegated decision making on the commissioning or provision of taxpayer funded services
- Administrative and clinical staff who have the power to enter into contracts and/or agreements with other organisations on behalf of their organisation
- Administrative and clinical staff involved in decision making concerning the commissioning of services (i.e. where Solent subcontracts with other organisations), purchasing of goods, medicines, medical devices or equipment, and formulary decisions
