

FOI_1426_2023-24 – FOI Request Bed availability and out of area placements

I would like to know, over the last 12 months, in your trust:

- 1. On how many occasions have leave beds (beds occupied by a patient who is on a period of leave but is still within in patient care) been occupied by another patient.**

We do not have information to look at this specifically but can confirm that for all of our Mental Health Inpatient Wards, none of them has been at 100% capacity after a monthly reconciliation over the last 12 months and so the need to backfill a bed has not existed.

- 2. On how many occasions have there been no unoccupied inpatient beds available within the trust.**

We are unable to analyse a daily summary for this but from monthly reporting figure can confirm that there have been zero occasions where the available bed days within any month in the last 12 months on all our Mental Health inpatient wards have been at 100% occupancy.

- 3. If out of area placements have been made for patients under the care of the trust over the last 12 months, please list.**
 - a) the trusts to which patients were sent and**
 - b) for each trust, the number of times patient(s) from your trust were sent there.**

Please see below available data:

1 was staff sensitive and so had to go out of area.
